

Heptacosafuorotributylamine, analytical standard, suitable for mass spectrometry (MS)

Heptacosafuorotributylamine, analytical standard, suitable for mass spectrometry (MS)

Identificativi Prodotto

Reference: 77299-5ML

Descrizione

Dati Tecnici

CAS Number: 311-89-7

Molecular Formula: C₁₂H_F₂₇N

Purity Grade: analytical standard, suitable for mass spectrometry (MS)

Molecular Weight: 671.09

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X5ML
